## **Tenant Move-Out Instructions**

The purpose of the refundable security deposit is that the home will be returned in the same condition that it was when it was rented, normal wear and tear excepted. Any alterations should be discussed with PPM. The “Move In Report” form that was signed at move-in, will be used to make this determination. Any repairs or upkeep needed to bring the property back to this standard will be charged to the deposit.

1. To expedite the return of your deposit, we will need your forwarding address and phone number. We will issue one check for any security deposit refund. This check must be made out in all tenants’ names. It is the tenants’ responsibility to work out the details of the distribution.
2. Keys should be returned to the office by 5:00 p.m. of the move-out date. You may put identified keys in the mail slot when the office is closed. All keys and garage door openers inventoried at move in should be returned to the office. Rent charges will continue until the keys are received and all personal property is removed from the home.
3. The property manager or our maintenance department will inspect the property shortly after all keys are returned to the office.
4. Should you have specific questions, please call our office.
5. See attached list of Guidelines for Return of Security Deposit.

## **Guidelines for Return of Security Deposit**

### **CARPETS/DRAPES**

1. Must be clean, no stains or odors .
2. Traverse/curtain rods must be clean and in place.

### **WALLS AND CEILINGS**

1. There should be no holes in the walls. Picture hooks/hangers/nails should be removed from the walls. Do not fill in small nail holes left from hanging pictures.
2. Walls/door jams/ceilings should be free of grease, dirt, smears, etc.
3. If color of walls/ceilings have been changed from original color without permission, original color must be restored.

### **KITCHEN**

1. Refrigerator must be defrosted and clean. All foodstuff should be removed and ice trays present. Refrigerator door should be left in open position for circulation of air when electricity is turned off.
2. Dishwasher must be clean.
